

Ethics & Leadership in Technology & the Media

Bridging Disciplines Programs allow you to earn an interdisciplinary certificate that integrates area requirements, electives, courses for your major, internships, and research experiences.

In the interest of educating thoughtful and responsible leaders, the Ethics & Leadership in Technology & the Media BDP brings together resources from across campus to allow students to explore ethical questions related to the relationship between technology, the media, and society. Topics may include the ethics of representation, government surveillance, technology and media law, media ownership, and ethical codes of conduct in technology and media professions. Through the Connecting Experiences component of the BDP, you may work with community and professional organizations or bring your interdisciplinary expertise to faculty research.

Upon completion of **19 credit hours** from the options listed to the right, you will earn a certificate in Ethics & Leadership in Technology & the Media.
