Ethics & Leadership in Health Care

Bridging Disciplines Programs allow you to earn an interdisciplinary certificate that integrates area requirements, electives, courses for your major, internships, and research experiences.

In the interest of educating thoughtful and responsible leaders, the Ethics & Leadership in Health Care BDP brings together resources from across campus to allow students to study ethical issues in health care policy, administration and delivery, and in medical, nursing, and other health professions. Courses explore the ethical and legal implications of controversial topics such as abortion, euthanasia, palliative care, scientific research with human subjects, technological innovation, and access to health care. Through the Connecting Experiences component of the BDP, you may work with community and professional organizations or bring your interdisciplinary expertise to faculty research.

The Ethics & Leadership in Health Care BDP is overseen by a panel of faculty members from across campus. Members include Minette Drumwright (Advertising), Madeline Maxwell (Communication Studies), Ethan Burris (Management), Rasha Diab (Rhetoric and Writing), John Dzienkowski (Law), Michael Findley (Government), Steve Friesen (Religious Studies), Diane Ginsburg (Pharmacy), Linda Golden (Marketing), John Luk (Medical Education), Joy Penticuff (Nursing), Robert Prentice (Business, Government, and Society), Howard Prince (LBJ), Sean Theriault (Government), Juliet Walker (History), Patricia Wilson (Architecture), and Paul Woodruff (Philosophy).
